

1/8-MILE TO 1/4-MILE CONVERSION TABLE

The following table can be used to estimate what your car would run in the quarter-mile based on your 1/8-mile elapsed time. This table is useful for those of you who run on an 1/8-mile track and would like to know what this time equates to in the 1/4-mile. NOTE: Please keep in mind that this table is only an estimate of what your 1/4-mile time would be. Different cars with different modifications, such as different rear end gears, will react differently. Your car may be a little quicker than this table shows, or a little slower. Again, this table is not exact, but simply a tool for estimating.

1/8-mile ET	1/4-mile ET	1/8-mile ET	1/4-mile ET	1/8-mile ET	1/4-mile ET	1/8-mile ET	1/4-mile ET
5	7.80	6.8	10.61	8.55	13.34	10.3	16.07
